A BOUTIQUE DESIGN TRADE FAIR

NOVEMBER 13-14, 2016
JAVITS CONVENTION CENTER

New York will get our midcentury modern style

In its seventh year, Boutique Design New York (BDNY), is already the top trade fair for the hospitality design industry.

Presented annually by Boutique Design at NYC's Javits Center, BDNY brings interior designers, architects, purchasing agents and hospitality owners/developers together with manufacturers and marketers of high-caliber design elements for hospitality interiors.

Essential Home will be present for the first time in this American trade show and we will have the chance to take with us some of our best products with a midcentury modern inspiration.
