TRAVEL BACK IN TIME TO ***THE GOLDEN ERA OF DESIGN***

ARE YOU READY TO TRAVEL BACK IN TIME TO THE GOLDEN ERA OF DESIGN?

Our latest project, Covet Valley House, is hidden amongst the trees, with a clear path that will take you there. And while we can't quite see it right away, Covet Valley is there to sweep you off your feet! In the middle of the trees, surrounded by nature like the authentic mid-century modern house that it is, Covet Valley House will transport you to a timeless space.

A small reflexion of a warm, dreamy Palm Springs, we can tell you that once you visit Covet Valley, you will feel like you have stepped into one of the most iconic cities in California.

With a stunning view over Douro River, Covet Valley comes as a private museum with several years of design history within, where the vintage becomes modern and history becomes an art. All this with a very own Portuguese touch added to the mix, of course!

Have we managed to pique your interest? Great!

The iconic mid-century modern style has been brought back to life with a new twist and inspiration for the past decade, and it has been impossible to stay indifferent to it. However, come as it may, its nostalgic touch has always been there to remind us of its true nature, rooted in the nordic design.

Sophisticated, luxurious, unapologetically bold.

This is Covet Valley! Here you will find a place where DelightFULL and Essential Home come together in its most honest form. A place where you can admire some of the most iconic pieces of furniture by Essential Home and coveted lighting fixtures by DelightFULL. Here, music and cinema will be together as one to create a magical, special place to welcome you.

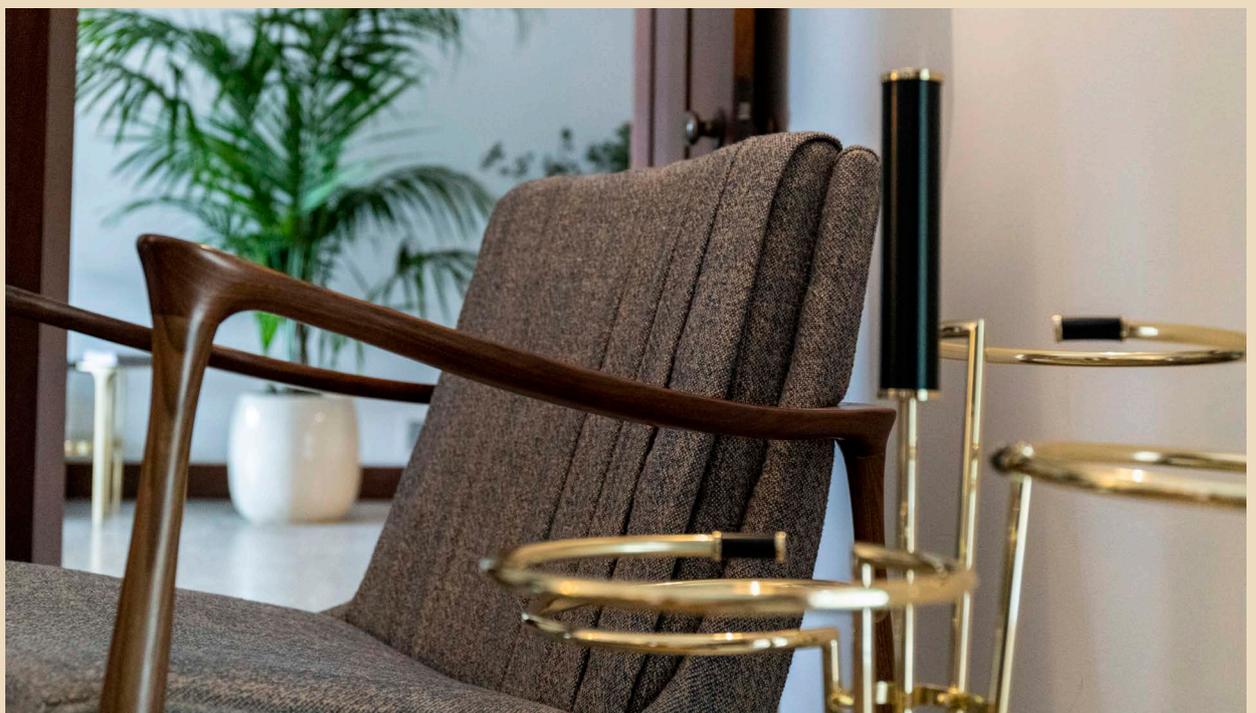

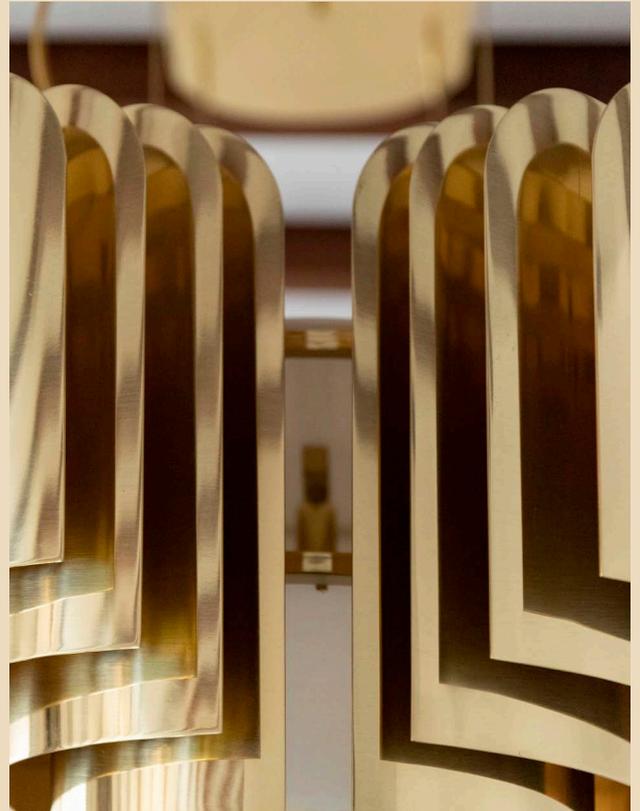

The feeling when entering Covet Valley is like no other. Chances are you will feel like walking around a glamorous, dreamy mansion in Palm Springs, with one thing that can never be replaced: an inspiring river view, and the stunning city of Porto in the background. Imagine what it would be like the feeling of knowing that you have the best of both worlds in the same space!

The pieces of both furniture and lighting that you will find at Covet Valley are all handmade by the some of the most skilled artisans in the country, which is a way of honouring not only the Portuguese culture, but its craftsmanship heritage as well.

Take a journey through time by exploring all the details, the clean and round lines of the mid-century modern furniture, the pastel colors of the soft fabrics, and the characteristics of the 1940s, 50s, and 60s inspired furniture and lighting.

Warm colors and velvety, luxurious textures can be found as a way to bring together aesthetics and comfort. The perfect balance between both retro and contemporary design, Covet Valley has the groovy vibe that will take anyone travel back in time with a foot set in the present.

ABOUT ESSENTIAL HOME

Essential Home sees this style as a stylish sanctuary from the stresses of life.

In interior design, it's all about respect for history, you should bring together the iconic character and elegance of the space with practical luxury. But Paris as it's fun and magic side, and Parisienne style is that whole idea of anti-decor, always have to look like you've done it yourself like a true French.

What better way to represent them to mix our soft and clean Marco Dining chair with the robust and sturdy Bertoria marble table. The key is to Keep it simple, mixing vintage with new, and allow our memories and treasures brought home from travels to shape the space rather than sticking to any particular interior Style.
